University Libraries Committee, March 21, 2012

Committee members participated in a Summon usability study and performed tasks in the library’s Summon database.

The committee discussed writing a letter or resolution that would support library activities and changes. Specifically, the library could use support for collections. An increase of $389,000 is needed just to maintain the current resources—this increase is because of inflation. (The rate of inflation on most publishers’ resources is well above the regular inflation rate.)

Tom Fox will draft a letter and send to committee members before the next meeting.##
