Foreign Language¹
  2 years of one language in high school – or – FL 1105 and 1106

Notes:
1. University Requirements—Foreign Language Policy
   The university requires two units of a single foreign language (or American Sign Language) during
   high school. Students who do not satisfy the foreign language requirement in high school may do so
   by taking six credits of college-level foreign language (classical language or American Sign
   Language). These six credits do not count toward the total minimum hours required of the declared
   degree program.

2. Major Requirements:
   To earn a B.S. degree in Fish Conservation, a student must pass the following courses, or their
   equivalents, with a grade of C - or better: BIOL 1105, BIOL 1106, BIOL 1115, BIOL 1116,
   CHEM 1035, CHEM 1036, CHEM 1045, CHEM 1046; MATH 1026, and FIW 2114.

   There are no hidden prerequisites on this check sheet; however, course requirements may change
   over time, and students should always check for prerequisite for classes they select.

   Students should consult www.fishwild.vt.edu/experiential_learning.html for more details on how
   to fulfill the experiential learning requirement.

   To remain in good standing, a student must achieve and maintain an overall and in-major GPA of at
   least 2.0. Courses used for the in-major GPA computation include all those designated as FIW,
FREC, GEOG, NR, and SBIO. To graduate, a student must achieve an overall and in-major GPA of at least 2.0.

**STUDENTS NOT MEETING THESE CRITERIA WILL NOT BE ALLOWED TO ENROLL IN 3xx and 4xx LEVEL FIW CLASSES.**

3. In accordance with university guidelines, courses satisfying degree core requirements may not be double counted to satisfy other areas of a degree (e.g., CLE).

4. **Satisfactory Progress**
   By the end of the semester in which they have attempted 60 hours (including transfer, advanced placement, advanced standing, and credit by examination), students must pass the courses listed in item number 2 above (or their equivalents).
