Notes:

1. University Requirements—Foreign Language Policy

The university requires two units of a single foreign language (or American Sign Language) during high school. Students who do not satisfy the foreign language requirement in high school may do so by taking six credits of college-level foreign language (classical language or American Sign Language). These six credits do not count toward the total minimum hours required of the declared degree program.

2. Major Requirements

To earn a B.S. degree in Fish Conservation, a student must pass the following courses, or their equivalents, with a grade of C - or better: BIOL 1105, BIOL 1106, BIOL 1115, BIOL 1116, CHEM 1035, CHEM 1036, CHEM 1045, CHEM 1046; MATH 1026, and FIW 2114.

There are no hidden prerequisites on this check sheet, however, course requirements may change over time, and students should always check for prerequisite for classes they select.

Students should consult [www.fishwild.vt.edu/experiential_learning.html](http://www.fishwild.vt.edu/experiential_learning.html) for more details on how to fulfill the experiential learning requirement.

To remain in good standing, a student must achieve and maintain an overall and in-major GPA of at least 2.0. Courses used for the in-major GPA computation include all those designated as FIW, FOR, NR, GEOG and SBIO. To graduate, a student must achieve an overall and in-major GPA of at least 2.0.

**STUDENTS NOT MEETING THESE CRITERIA WILL NOT BE ALLOWED TO ENROLL IN 3xxx and 4xxx LEVEL FIW CLASSES.**
3. **Satisfactory Progress**
   Students must, by the end of the semester in which they have attempted 45 hours (including transfer, advanced placement, advanced standing, and credit by examination), pass the courses listed in item number 2 above (or their equivalents).
