Course Approval Guidelines

The Office of the University Registrar has prepared this reference guide to assist faculty in preparing proposal packages for new and revised courses. Our goal is to move proposals as quickly as possible through the approval process while adhering to applicable University policies and standards.

Overview of Approval Process for New/Revised Course Proposals

Course Issues NOT Requiring Governance Approval

- Course prerequisite change (Form) (Requires a letter of support to use courses from other departments)
- Request to drop course from Catalog (Form)
- Minor course revisions < 20% (Requires course proposal with revisions incorporated and supporting documentation that revisions is < 20%)
- Request to end cross-listed course status

Course Issues Requiring Governance Approval

- New course
  - A change in course number for a previously approved course is considered a “new” course
- Course number change
- Course title change
- Credit hour change/change in breakdown of instructional credit hours and instructional contact minutes
- Course content revision > 20% (Topic Syllabus with matching Catalog Description)
  - When assessing whether a change is < 20%, consider the impact to overall course (i.e., small change to the Catalog Description may also require a revision to the Learning Objectives and/or Topic Syllabus)
- Change in grade mode
- New or revised course for inclusion in CLE or Pathways General Education
- Request to create conjoined courses (4000-5000G)
  - The undergraduate proposal must be approved before the graduate proposal can be reviewed

Course Approval Process

Administrative Review (< 20% Revision)

- After the course is approved by the respective College’s Curriculum Committee (CCC), the proposal package is uploaded into JIRA as a < 20% course revision
- The proposal package is screened by the Registrar’s Office to ensure the revision qualifies as < 20% revision and is then processed in Banner
  - If deemed > 20% a notification is returned to college and then routed to begin 15-Day Review for review through governance

Governance Process (> 20% Revision)

- After the course is approved by the respective CCC, the proposal package is uploaded into JIRA by the college Curriculum Coordinator (designated curriculum contact) and is available for 15-Day Review. 15-Day Review is the review period in which the University community can access
CCC approved proposals. It begins on the first day of the second week of classes in Fall and Spring terms and only occurs when classes are in session (not during exams, holidays, etc.)

- During 15-Day Review, suggestions and comments on the proposal may be directed to the initiating college by the University faculty, staff, and/or Office of the University Registrar to address comments, recommendations, or compliance with University standards and policies.
- Responses to concerns and/or objections to courses during the 15-Day Review period should be uploaded into JIRA in the form of an email, letter, or memo and directed to the initiating college and the University Registrar. Any disputes must be resolved by the involved academic units before the proposal may proceed.
- It is assumed that "no response" from the University community during the 15-Day Review period represents consent.
- After completion of the 15-Day Review recommendations, the proposal is forwarded to the Undergraduate Curriculum Committee (UCC) for undergraduate items and the Graduate Curriculum Committee (GCC) for graduate items.
- Following approval by UCC or GCC, final approval is granted by either the Commission on Undergraduate Studies and Policies (CUSP) or the Commission on Graduate Studies and Policies (CGSP) via approval of the committee report.
- For governance related questions or to check the status of a course proposal moving through the governance process, please contact Office of the University Registrar Governance Staff at 231-1179 or 231-7985.
- The typical approval timeline for a course proposal is approximately two months.

**Makeup of a Complete Course Proposal Package**

Each course proposal package must include the following items:

- Completed, signed, and dated “Coversheet – Proposal for New and Revised Courses” ([Form](#))
- Course proposal
- Letter(s) of support, as applicable

*Note: Each version of the course proposal package uploaded into JIRA should be viewed as a stand-alone document and include each of the required proposal package items.*
Guidelines for Preparing Course Proposals

Helpful Hints for Preparing Course Proposals:

- Not all faculty and staff reviewing course proposals will be familiar with the course content or discipline. To assist in the review process, write all proposal sections so that both primary readers (subject matter experts) and secondary readers (people outside the discipline) will be able to understand what is being taught in the course (e.g., avoid using discipline jargon, define acronyms)

- One of the key areas that the Curriculum Committees consider in the review of a course proposal is the continuity/alignment between the Catalog Description, Learning Objectives, and Topic Syllabus sections of the course proposal
  - Is there a notable alignment between the content in the Catalog Description to the topics outlined in the Topic Syllabus?
  - Do the Learning Objectives reflect measurable outcomes to assess the student’s proficiency in these content areas?
  - Have key/connecting words and concepts been used throughout the proposal to show alignment between the Catalog Description, Learning Objectives, and Topic Syllabus?

- **Conjoint Courses**: Pairs of 4000- and 5000-level courses that offer the same content to undergraduate and graduate students respectively. When a conjoint course is scheduled, a section of each course will be scheduled in the same classroom, at the same time, and taught by the same faculty. The undergraduate proposal must be approved by the UCC before the graduate proposal can be reviewed by the GCC

- **Cross-Listed Courses**: Courses that are cross-listed between two or more departments. When a cross-listed course is scheduled, a section of each course will be scheduled and taught in the same classroom, at the same time, and taught by the same faculty. A single course proposal package is submitted for cross-listed courses

---

Course Proposal
Catalog Description
Learning Objectives
Justification
Prerequisites and Corequisites
Texts and Special Teaching Aids
Topic Syllabus
Old (current) Topic Syllabus (if a revised course)
# Preparing “Coversheet – Proposal for New and Revised Courses”

## General Information
Proposal Date: The date the proposal has been written.

15-Day Review End Date
- Calculated based on the Academic Calendar and posted by college Curriculum Coordinator at the time proposal is submit for 15-Day Review…i.e., count only days during Fall and Spring Terms when classes are in session

Department
Course Designator and **Number**

Title of Course

Credit Hours
- Reference “Instructional Credit Hour and Instructional Contact Minutes” requirements.

Course Transcript Title (ADP) (Automated Data Processing)

Department Contact:
- Who will be contacted regarding needed revisions and statuses
  - Contact Phone
  - Contact E-Mail

### Scorecard Metrics (for undergraduate courses only)
- Study Abroad
- Service Learning
- Experiential
- Undergraduate Research

*Note: The justification for all selected Scorecard Metric areas must be include in the Justification section of course proposal.*

### First Year Experience
- Include letter of approval in proposal package from Director of First Year Experiences stating that course is in compliance with FYE requirements

### Check ONLY ONE of the following boxes

- **New Course:**
  - A change in course number for a previously approved course is considered a “New” course

- **Revised Course:**
  - **Select whether course is proposed as “Revision > 20%” or “Revision < 20%”**

For CLE/Pathways courses, complete proposal documentation found at Pathways General Education website ([https://www.pathways.prov.vt.edu/proposal-forms.html](https://www.pathways.prov.vt.edu/proposal-forms.html))

*If proposal is a course revision, include a summary of course revisions in the Justification section of proposal.*

A: Attach statement from Dean or Departmental Representative:  Letters of Support

B: Attach appropriate letters of support from affected departments and/or colleges:  Letters of Support

C: Effective Semester:

D: **Change in Course Title** (From:  To: )
### E: Change in Transcript Title (ADP) (From: To:)

### F. Change in Credit Hours (From: To:)
- Reference “Instructional Credit Hour and Instructional Contact Minutes” requirements at [https://registrar.vt.edu/faculty/teaching/instructional-minutes.html](https://registrar.vt.edu/faculty/teaching/instructional-minutes.html)

### G. Change in Lecture and/or Lab Hours (From: To:)
- Reference “Instructional Credit Hour and Instructional Contact Minutes” requirements at [https://registrar.vt.edu/faculty/teaching/instructional-minutes.html](https://registrar.vt.edu/faculty/teaching/instructional-minutes.html)

### H: Course Number(s) and Title(s) to be deleted from the Catalog with APPROVAL:

**Note:** If course will not be discontinued until a later time, please do not list the information here and submit a “Request to Drop Course from the Catalog” form on the Office of the University Registrar website.

**Approval Signature**
- All signatures required for initial submission
- If Coversheet needs to be revised during governance review process, add a revised Coversheet to proposal package, placing on top of original Coversheet, and stating “see attached Coversheet for signatures” in “Approval Signature” section of the revised Coversheet

### Proposal

**Title of Course**
- 75 character space max, mixed case, printed in the University Catalog
- **Conjoint Courses:** The graduate course title must match the undergraduate course title, except that it must begin with “Advanced.” For example, Biomaterials (undergraduate) and Advanced Biomaterials (graduate)

**Course Transcript Title (ADP Title-Automated Data Processing)**
- 30 character space max, mixed case, printed on student academic transcript and Time Table
- When possible, ADP title should be the same as course title or a condensed version of the course title when over 30 characters
- Use as many of the 30 spaces as is practical and arrange abbreviations to maximize information about course content
- **Topic Course:** If a course may be repeated with different content for credit, please consider adding “Topic” to the course title. This would have the advantage of allowing different subject topics to be presented on the student transcript (i.e., TS: Policies). If this direction is taken, begin the course title and ADP title with the word “Topic” on the Coversheet and Catalog Description, e.g., title: Topics in Global Public Polities, ADP: Topics Global Public Policies
- **Cross-Listed Courses:** List department (subject) designator and course number for all cross-listed courses, formatted with the Home department listed first and cross-listed departments thereafter in parentheses, i.e., WGS 2264 (AFST 2264) (SOC 2264)
Course Number

- Adhere to the University Course Number Policy (Policy 6900)
- A discontinued course number may not be reused until five years has elapsed
- Series Course: The Course Numbers for multi-semester courses are separated by hyphens if courses must be taken in semester sequence (i.e., XXX5 – XXX6). Do not append I and II to the course title
- Connected Course: The Course Number for multi-semester courses are separated by a comma if courses are not required to be taken in sequence (i.e., XXX5, XXX6)
- Cross-Listed Courses: If possible, it is preferred that course numbers have the same digits. The first and fourth digits must be the same
- Stand-alone courses must end with the digit “4”
- Conjoint Courses: The graduate course number ends with G. It is preferred that the undergraduate and graduate courses have the same digits except for the 4 or 5 as the first digit (i.e., 4024 and 5024G). If the parallel graduate course number is already in use, please consult with Office of the University Registrar Governance Staff

Policy 6900: Course Numbering System

First Digit of Course Number
The first digit of a course number indicates the academic level of the students for whom the course is primarily designed.

<table>
<thead>
<tr>
<th>First Digit of Course Number</th>
<th>Description of Student Level</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>Any level student; course is not for University credit (exception for Agricultural Technology courses)</td>
</tr>
<tr>
<td>1</td>
<td>First-year undergraduate students</td>
</tr>
<tr>
<td>2</td>
<td>Second-year undergraduate students</td>
</tr>
<tr>
<td>3</td>
<td>Third-year undergraduate students</td>
</tr>
<tr>
<td>4</td>
<td>Fourth-year and fifth-year undergraduate students</td>
</tr>
<tr>
<td>5</td>
<td>First-year graduate students and second-year graduate students pursuing a masters degree</td>
</tr>
<tr>
<td>6</td>
<td>Regular graduate students beyond the masters level</td>
</tr>
<tr>
<td>7</td>
<td>Regular graduate students beyond the masters level</td>
</tr>
<tr>
<td>8</td>
<td>Professional degree candidates (DVM)</td>
</tr>
<tr>
<td>9</td>
<td>Professional degree candidates (DVM)</td>
</tr>
</tbody>
</table>

Second and Third Digits of Course Number
The second and third digits are established at the option of the department with the following conditions:
- The combination must be identical for each course within a given sequence
- Combinations which are dedicated throughout the University for courses of a specific type must be used only as defined
- No number combination previously used may be reclaimed for a new course until five years has elapsed after the previous use
Fourth Digit of Course Number

The fourth digit indicates whether the course is part of a sequence and its placement in the sequence.

<table>
<thead>
<tr>
<th>Fourth Digit of Course Number</th>
<th>Significance of Fourth Digit</th>
</tr>
</thead>
<tbody>
<tr>
<td>4</td>
<td>Not part of a sequence</td>
</tr>
<tr>
<td>5</td>
<td>First in sequence of two and three courses</td>
</tr>
<tr>
<td>6</td>
<td>Second in sequence of two or three courses</td>
</tr>
<tr>
<td>7</td>
<td>Third in sequence of three courses</td>
</tr>
</tbody>
</table>

Numbers 0 - 3, 8, and 9 must not be used.

Course Number Combinations with Preassigned Meaning

The following course number combinations must be used by any department offering courses of the types indicated. The course number combinations may not be used for any other course types.

<table>
<thead>
<tr>
<th>Dedicated Numbers</th>
<th>Course Types</th>
</tr>
</thead>
<tbody>
<tr>
<td>5894</td>
<td>Final Examination (Masters-level only)</td>
</tr>
<tr>
<td>x904</td>
<td>Project and Report</td>
</tr>
<tr>
<td>x954</td>
<td>Study Abroad</td>
</tr>
<tr>
<td>x964</td>
<td>Field Work/Practicum</td>
</tr>
<tr>
<td>x974</td>
<td>Independent Study</td>
</tr>
<tr>
<td>x984</td>
<td>Special Study</td>
</tr>
<tr>
<td>x994</td>
<td>Research</td>
</tr>
</tbody>
</table>

Credit Hours

To determine contact to credit hour for a course based on the given instructional delivery, reference the requirements of Instructional Credit Hour and Instructional Contact Minutes found at https://registrar.vt.edu/faculty/teaching/instructional-minutes.html. For quick reference:

- Lecture - 1 contact hour = 1 credit hour
- Lab - 3 contact hours = 1 credit hour
- Design Lab/Studio - 1.5 contact hours = 1 credit hour
- Recitation – 1 contact hour = 1 credit hour
**Example:** 3 credit hour course with 1 credit hour lab – state, “(2H, 3L, 3C)” at end of Catalog Description.

**Lecture with Lab or Lab only (i.e., Lecture 0 credit hours) Calculator**

<table>
<thead>
<tr>
<th>Lecture Contact to Credit Hour Calculation</th>
<th>2 Input Proposed Course Lecture Credit Hour(s)</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 contact hour</td>
<td>1 credit hour</td>
</tr>
<tr>
<td><strong>2 credit hour(s) X 1 contact hour/credit hour X 50 minutes/credit hours</strong></td>
<td><strong>100 minutes/week</strong></td>
</tr>
<tr>
<td><strong>100 minutes/week X 15 weeks/term</strong></td>
<td><strong>1500 aggregated minutes/term</strong></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Lab Credit Contact to Credit Hour Calculation</th>
<th>1 Input Course Proposed Lab Credit Hour(s)</th>
</tr>
</thead>
<tbody>
<tr>
<td>3 contact hour</td>
<td>1 credit hour</td>
</tr>
<tr>
<td><strong>1 credit hour X 3 contact hour/credit hour X 50 minutes/credit hours</strong></td>
<td><strong>150 minutes/week</strong></td>
</tr>
<tr>
<td><strong>150 minutes/week X 15 weeks/term</strong></td>
<td><strong>2250 aggregated minutes/term</strong></td>
</tr>
</tbody>
</table>

**Resulting Course Total Credit Hour Breakdown (H, L, C) for Lecture with Lab or Lab only (i.e., Lecture 0 credit hours)**

<table>
<thead>
<tr>
<th>2</th>
<th>H (Lecture)</th>
<th>3</th>
<th>(L) Lab</th>
<th>3</th>
<th>C (Credit Hours)</th>

<tr>
<td></td>
<td>1500 aggregated minutes/term</td>
<td>2625 aggregated minutes/term</td>
</tr>
</tbody>
</table>

---

**Catalog Description**

Brief description of the course as it will appear in the Catalog. Description should align with Learning Objectives and Topic Syllabus. Include contact to credit hour structure (i.e., 2H, 3L, 3C). Unless “P/F only” is indicated, course will be setup as all grade modes (letter grade as the default).

**Helpful Hints for the Catalog Description:**

- To promote consistency in the University catalogs, use phrases (declarative statements), rather than complete sentences. In most cases, this can be accomplished by using phrases without verbs and removing introductory and transitional words. Use concise sentences when phrases don’t convey the desired intent.
• Use key words/concepts to promote continuity/alignment between the Catalog Description, Learning Objectives, and Topic Syllabus

• **Repeatability:** If course may be repeated, include statement, “May be repeated ____ times with different content for a maximum of ____ credit hours.”

• If there is content duplication between proposed course and another currently approved course such that the student may not receive credit for completing both, include statement, “Partial duplication of ……”, or “Course credit will not be awarded for both ____ and ____” or words to this effect

• **Sequenced (Series or Connected) Courses:** (i.e., XXX5 – XXX6 or XXX5, XXX6) Include content taught in both courses. Begin with sentence providing overview, followed by XXX5: content taught in this course; XXX6: content taught in this course. Pre:___ for XXX5. Pre: XXX5 for XXX6. (3H, 3C)

• **Conjoint Courses:** Catalog Description must be identical for both courses, except the graduate course will include “Pre: Graduate standing.” Both courses should meet for the same number of contact hours and carry the same number of credits

**Learning Objectives**
Having successfully completed this course, the student will be able to:

1. Learning Objective 1  
2. Learning Objective 2  
3. Learning Objective 3

**Helpful Hints for the Learning Objectives:**

• What new capabilities, skills, and levels of awareness will students derive from this course? The objectives must be **measurable**

• Begin with “Having successfully completed this course, the student will be able to:” or words to this effect

• To aid in the committee review process, please number the objectives rather than using bullets

• Ensure the inclusion (or exclusion) of punctuation at the end of the objective statements is consistent for all

• Use key words/concepts to promote continuity/alignment between the Catalog Description, Learning Objectives, and Topic Syllabus

• **Sequenced (Series or Connected) Courses:** (i.e., XXX5 – XXX6 or XXX5, XXX6) structure the Learning Objectives using:
  o Header “XXX5” to present Learning Objectives that align with presentation of content taught in Catalog Description and Topic Syllabus for the XXX5 course
  o Header “XXX6” present Learning Objectives that align with presentation of content taught in Catalog Description and Topic Syllabus for this XXX6 course

• **Topics Courses:** Write Learning Objectives broad enough that they support the two to three sample Syllabus topics provided in the course proposal

• **Conjoint Courses:** Learning Objectives must be identical for both courses, except the graduate course must include one or two additional objectives to address the advanced learning outcomes expected at the graduate level
- Do not list assignments, but state measurable learning outcomes students are expected to gain from that assignment

- Although not all inclusive, the following table provides a list of acceptable **action verbs** to use in formulating Learning Objectives:
  - Avoid lower undergraduate academic-level outcomes such as define, describe, explain, identify, etc. as indicated with * in the following chart when writing upper level undergraduate and graduate course Learning Objectives

<table>

**Examples:**
A) Instead of:
1. Conduct a review of the literature
2. Review journal articles

Consider:
1. Analyze the use of theory in scholarly journal articles
2. Evaluate the research designs and analytic methods used in recent publications
3. Assess the scientific merits and weaknesses of research published in scholarly journals
4. Evaluate the contribution of published scholarly journal articles to advancing the science of…
B) Instead of:
1. Apply analytical methods and communicate results in both written and oral presentation formats
2. Write a grant proposal

Consider:
1. Apply analytical methods of ___ to_____ in order to justify conclusions about
2. Critique the literature on _____ and develop the rationale for new research

Justification

Address each of the following items, as applicable to the specific course proposal, in separate paragraphs (headers for the paragraphs are not necessary):

- **Need?** Paragraph to justify why the course is needed. Specify the reason why the proposed course should be taught at VT (Required for all course proposals)
  - Include arguments establishing the educational significance/uniqueness of the proposed course with respect to a curriculum or program of study and how course offering will benefit/support students in the pursuit of area of study
  - Avoid arguments related to staff competence, pressure, and critiques from external entities or student dissatisfaction with existing course(s) for justification for course

- **Revision?** If proposal is a revision for an existing course, include paragraph outlining changes made to course

- **Scorecard Metric?** If proposal requests a Scorecard Metric area (undergraduate courses only) (i.e., Study Abroad, Service Learning, Experiential, Undergraduate Research), include paragraph of support. Justification should address metric area requirement as outlined by the “Scorecard Metrics Definitions” found at [https://registrar.vt.edu/forms-multi-brief/scorecard-metrics.html](https://registrar.vt.edu/forms-multi-brief/scorecard-metrics.html)

- **Academic Level**: Paragraph to justify and explain why this course is taught at the requested academic level (Required for all course proposals)
  - Begin paragraph with statement, “Course is taught at the X000-level because…”
  - As appropriate, frame justification based on the value and/or contribution the placement of the course at the X000-level offers a student toward the successful completion of their academic program
  - Having provided this foundation, include, as appropriate
    - Any academic requirements, and/or content/skills acquired through the combined course work completed during previous academic years and/or completion of course prerequisite(s) in further support of the placement of the course at the requested academic level
    - Include concepts, skills, academic background, or level of maturity necessary to succeed
    - Content, tasks, concepts, pedagogy, and/or academic rigor presented during course that students will need to master to succeed in course
  - Course placement in particular curriculum structure or program of study that supports student’s successful completion, and/or rationale used by the department to arrive at the course level. The intrinsic value of the subject matter is not the question here, but rather, the placement of the course in a particular curriculum structure or program of study
Helpful Hints for the Justification:

- **Conjoint Courses:** Although the justification must be parallel for both courses, the graduate proposal must also indicate the need for the course at the graduate level of instruction and provide justification for receiving graduate credit.

Prerequisites and Corequisites

List any required prerequisites and/or corequisites with titles, specifying any “and” / “or” combinations and conditions, noting that a comma signifies the “and” indicator.

Helpful Hints for Prerequisites and Corequisites:

- If a specific course (or courses) constitute the prerequisite, consider including a description of material in these courses that is of significance for the success in this course in this section of proposal and/or include this information to strengthen level justification in Section III: Justification
- A prerequisite does not, by itself, justify course level nor is a prerequisite necessary for subsequent level
- When including a minimum grade requirement for a prerequisites course, data must be provided that clearly shows the need for that minimum grade in order to be successful in the course. Minimum grade prerequisites are not to be used as a way to limit enrollment in courses
- Permission of instructor is implied and does not need to be listed
- Do not list prerequisites for prerequisites
- **Conjoint Courses:** Prerequisite for the graduate course must be “Pre: Graduate standing”
- **Graduate Courses:** Prerequisites are required in all graduate course proposals
  - The default prerequisite is “Graduate standing”
  - “Graduate standing” may be omitted only if a graduate course is a prerequisite
  - Courses numbered lower than 5000 are not permitted as prerequisites for graduate courses

Texts and Special Teaching Aids

Use headers to present whether text is “Required” or “Recommended”. If there is not a required text, state, “None” and provide justification as to why there is no required text and include examples of materials that will be used.

Under each applicable header, apply consistent use of APA or MLA format to cite reference materials, order citations alphabetically, and include reference to applicable page numbers. For example:

- **APA** - Author Last name, Initials. (Year of publication). *Title of work*. Location: Publisher. Pp.
- **MLA** - Author Last name, First name. *TITLE OF WORK*. Location: Publisher, Year of publication. Pp

Include separate category for any additional course materials and teaching aids to be used. List in alphabetical order representative, special materials such as supplementary texts, journal articles,
periodicals, films, and courseware packets (with examples), websites, etc. Do not attempt to be exhaustive.

**Helpful Hints for Texts and Special Teaching Aids:**

- If a textbook, readings, or other materials are required, include one or more text or representative examples. If only journal articles are required or recommended, include several representative examples (an exhaustive list is not necessary). For texts where not all content will be used, list applicable chapters and/or pages from textbooks.

- **Sequenced (Series or Connected) Courses:** (i.e., XXX5 – XXX6 or XXX5, XXX6) structure Texts and Special Teaching Aids using:
  - Header “XXX5” followed by “Required” and/or “Recommended” to present listing of text and/or special teaching aids
  - Header “XXX6” followed by “Required” and/or “Recommended” to present listing of text and/or special teaching aids

- **Topics Courses:** Provide at least two example reading lists to illustrate the assigned learning materials for different topics

**Topic Syllabus**

The Topic Syllabus will be reviewed by many people not familiar with the subject matter, therefore, avoid jargon. List topics or major units with percentage of course time for each. If a topic contains over 20%, a breakdown of sub-topics is to be listed. Percentage of time must total 100% and is to be placed under heading “Percent of Course”.

**Helpful Hints for the Topic Syllabus:**

- Use key words/concepts to promote continuity/alignment between the Catalog Description, Learning Objectives, and Topic Syllabus

- Avoid beginning Syllabus topics with action verbs that makes topics read like Learning Objectives

- **Sequenced (Series or Connected) Courses:** (i.e., XXX5 – XXX6 or XXX5, XXX6) structure Topic Syllabus using:
  - Header “XXX5” followed by topics
  - Header “XXX6” followed by topics

- **Topics Courses:** Provide at least two example Topic Syllabi to illustrate the content to be covered when the courses focus on different topics

- **Conjoint Courses:** Topic Syllabus must be identical for both courses

**Old (current) Topic Syllabus (in the case of a revised course)**

The Topic Syllabus of the course(s) currently being taught must be included.
Letters of Support

Include all of the following letter(s) of support depending on the specific proposal:

- Statement from Dean, Department Head or Designee presenting whether the offering or continued offering of the course will require or generate the need for additional departmental and/or University resources (e.g., faculty, library, space, and/or technical support) *(Required for all course proposals)*

- Include letter(s)/e-mail(s) of support to use another department’s course(s) as a prerequisite or corequisite requirement
  - If a course revision, letter of support is only needed for a prerequisite/Corequisite that has been added as a new requirement

- **Cross-listed Courses:** Include letter of support signed by all departments detailing cross-list agreement that includes all of the following information (example provided):
  - Identification of course Home department (first listed) and cross-list department(s)
  - Acknowledgment that when cross-listed course is scheduled that a section of each course will be scheduled in the same classroom, at the same time, and taught by the same faculty
  - Acknowledgment that if Home department course is inactivated that cross-listed course department(s) will submit a new course proposal through governance if they wish to continue teaching the course

- Include letter of approval from Director of First Year Experiences stating that the course is in compliance with FYE requirements, if applicable *(www.fye.vt.edu)*

Re: Cross-Listing of ABCD 1234 (EFGH 1234) (IJKL 1234)

The Department of ABCD would like to request the ABCD 1234 (EFGH 1234) (IJKL 1234), Course Title, course cross-listing effective [term year].

It is understood that when this cross-listed course is scheduled that a section of each course will be scheduled in the same classroom, at the same time, and taught by the same faculty.

It is also understood that if the ABCD 1234 (Home Department) course is inactivated that the EFGH and/or IJKL Department(s) must submit a new course proposal through governance if they wish to continue teaching the course.

ABCD 1234 (Home Department)  
College Dean, Depart. Head, or Designee  Date

EFGH 1234 (Cross-listing Department)  
College Dean, Dept. Head, or Designee  Date

IJKL 1234 (Cross-listing Department)  
College Dean, Dept. Head, or Designee  Date
FAQs and Helpful Hints

FAQs

How do I get my course proposal into JIRA?
Each college has designated a Curriculum Coordinator who facilitates uploading course proposals into JIRA. Please contact the Office of the University Registrar Governance Staff if help is needed to identify this contact.

I just received 15-Day Review feedback from Governance Staff, what do I do now?
After the requested revisions are complete, please send the proposal to your college’s designated Curriculum Coordinator for uploading into JIRA.

I just received feedback from the Curriculum Committee, what do I do now?
After the requested revisions are complete, please send the proposal to your college’s designated Curriculum Coordinator for uploading into JIRA.

How can I find out if a course number is available for use?
Please contact the Office of the University Registrar Governance Staff for support.

What is an ADP title? Is this different from a course title?
When possible, ADP title should be the same as the course title or a condensed version of the course title when over 30 characters.

What is a conjoint course?
Pairs of 4000- and 5000-level courses that offer the same content to undergraduate and graduate students respectively. They are scheduled in the same classroom, at the same time, and taught by the same faculty. The undergraduate proposal must be approved by the UCC before the graduate proposal can be reviewed by the GCC.

The graduate course title must match the undergraduate course title, except that it must begin with “Advanced.” For example, Biomaterials (undergraduate) and Advanced Biomaterials (graduate). The graduate course number ends with G. It is preferred that the undergraduate and graduate courses have the same digits except for the 4 or 5 as the first digit (i.e., 4024 and 5042G). If the parallel graduate course number is already in use, indicate a different (available) number.

Catalog Description must be identical for both courses, except the graduate course will include “Pre: Graduate standing.” Both courses should meet for the same number of contact hours and carry the same number of credits.

Learning Objectives must be identical for both courses, except the graduate course must include one or two additional objectives to address the advanced learning outcomes expected at that level. Justification must be parallel for both courses. The graduate proposal must indicate the need for the course at the graduate level of instruction and must provide justification for receiving graduate credit. Prerequisite for the graduate course must be “Pre: Graduate standing.”

The Topic Syllabus must be identical for both courses.
The GCC will not act on requests for graduate credit for a conjoint 4000-5000G course until the 4000-level course is approved by UCC, thus adding time to the process for obtaining graduate credit for the 5000G course. Submit the approved 4000-level course proposal with the proposal for the 5000G counterpart course.

**What is a cross-listed course?**
Courses that are cross-listed between two or more departments. When a cross-listed course is scheduled, a section of each course will be scheduled in the same classroom, at the same time, and taught by the same faculty. A single course proposal package is submitted for cross-listed courses.

List department (subject) designator and course number for all cross-listed courses formatted with the Home department listed first and cross-listed departments thereafter in parentheses, i.e., WGS 2264 (AFST 2264) (SOC 2264).

If possible, it is preferred course numbers have the same digits. The first and fourth digits must be the same.

Include letter of support signed by all departments detailing cross-list agreement that includes all of the following information:

- Identification of course Home department and cross-list department(s)
- Acknowledgment that when cross-listed course is scheduled that a section of each course will be scheduled and taught in the same classroom, at the same time, and by the same faculty
- Acknowledgment that if the Home department course is inactivated, that the cross-listed course department(s) will submit a new course proposal through governance if they wish to continue teaching the course

**If my proposed class is 3 credit hours, how many hours per week do we need to offer for the lecture and the lab respectively?**
Reference the Instructional Credit Hour and Instructional Contact Minutes found at https://registrar.vt.edu/faculty/teaching/instructional-minutes.html

**Can I change the lecture/lab contact hours without changing the course credit hours or vice versa?**
Reference the Instructional Credit Hour and Instructional Contact Minutes found at https://registrar.vt.edu/faculty/teaching/instructional-minutes.html
**Frequently Encountered Problems with Proposals**

- Missing resource letter with course submission
- Lack of support letter from other department and/or college
- Inappropriate Course Transcript Title (ADP)-Exceed maximum character spaces or lack of alignment with the long title
- No indication if course is new or revised
- Missing effective semester or effective semester has already expired (lack of lead time)
- Not clear if course replaces or duplicates another course
- Inconsistency in University requirement for lecture and lab contact hours to credit hours
- Incomplete approval signature and dates
- Non-measurable Learning Objectives
- Incomplete textbook and teaching aid information
- Lack of Topic Syllabus breakdown for topics greater than 20%
- Editing the wrong version of the proposal package throughout the governance process
- Subsequent revisions of course proposal uploaded into JIRA do not include all letters/documents

**Helpful Hints**

The Coversheet should be completed in its entirety.

All areas of course proposal should be reviewed for completeness and inclusion of required information such as department name, course number, textbook pages, etc.

Errors which frequently cause a course to not be approved or to be tabled for future action are principally related to clarity and consistency between the Catalog Description, Learning Objectives, and Topic Syllabus. If inconsistent information is supplied and the Committee’s college representative offers no clarification, the course may be tabled for action until clarification is available.

**Conjoint Courses:** The GCC will not act on requests for graduate credit for a conjoined 4000-5000G course until the 4000-level course is approved by the UCC, thus adding time to the approval process for the 5000G course. Submit the approved 4000-level course proposal with the proposal for the 5000G counterpart course.

Please do not hesitate to contact the Office of the University Registrar Governance Staff; we are standing by to help!
