

COLLEGE OF AGRICULTURE AND LIFE SCIENCES
CHECKSHEET for a **MINOR** in **INTERNATIONAL AGRICULTURAL AND LIFE SCIENCES**
Offered by Academic Programs in the College of Agriculture and Life Sciences

Effective for Students Graduating 2019

The minor in International Agricultural and Life Sciences focuses on agricultural issues as they apply to less developed countries. The courses recommended for the minor deal with problems affecting these countries, such as environmental degradation, competition for resources, food security, and economic stability, as well as the role of agriculture in finding solutions to alleviate these problems.

The minor in International Agricultural and Life Sciences requires the completion of 18 credits. All courses must be taken and passed on an A–F basis unless only offered on P/F basis.

REQUIRED COURSES (choose at least 9 credits)
